

## SUMMARY INFORMATION

Michael R. Greenberg

BA: Hunter College, 1965, Concentrations in math and history  
MA: Columbia University, Urban geography; Ph.D.: Columbia University, Environmental and medical geography, 1969

Professor and Associate Dean of the Faculty, Edward J. Bloustein School of Planning and Policy, Rutgers University; Director, National Center for Neighborhood and Brownfields Redevelopment; Adjunct Professor of Epidemiology, School of Public Health and Liaison to School of Public Health; Adjunct Professor of Environmental and Community Medicine

### RESEARCH AND TEACHING INTERESTS

Urbanization, industrialization, and environmental health policy

### ILLUSTRATIVE AWARDS AND SERVICES

- \*Special Award of Merit from the United States Environmental, Protection Agency for education/research, 1977;
  - \*Board of Trustees Award for Excellence in Research, Rutgers University, 1984;
  - \*Special Award for Journalism for Environmental Risk and the Press, Sigma Delta Chi, Society of Professional Journalists, 1988;
  - \*Special Award for Journalism for The Environmental Reporter's Handbook, Sigma Delta Chi, Society of Professional Journalists, 1989;
  - \*Presidential Award for Public Service in public health and the environment, Rutgers University, 1992;
  - \*Distinguished Scholar Award, Association of American Geographers, 1997;
  - \*Jerome Rose Distinguished Teaching Award, Bloustein School, Rutgers University, 1997;
  - \*Dennis J. Sullivan Award, New Jersey Public Health Association, 2001;
  - \*Honorary member of Delta Omega (Public Health), 2003;
  - \*Distinguished Achievement Award, International Society for Risk Analysis, 2003.
  - \*Faculty Scholar-Teacher Award, Rutgers University, 2006-07
- 
- \*Director or co-director, New Jersey Graduate Program in Public Health, 1983 until it became a school in 1999; present; Academic Liaison to School of Public Health, 1999+
  - \*Director of Public Policy and Education Division, NSF-Industry/University Cooperative Center for Research in Hazardous and Toxic Substances, 1983-2000;
  - \*Director, Environmental Policy Division, EOHSI, 1989-2000;
  - \*Co-Chair, Medical Geography Specialty Group, Association of American Geographers, 1986-88;
  - Founding Chair, Advisory Group on Cancer Prevention and Control to New Jersey Commission on Cancer Research, 1987.

- \*Member, Council of Academic Policy Advisors to the New Jersey Legislature, 1998-present
- \*Site Visitor, Council for Education for Public Health: Saint Louis University (1996), Arizona (1997), Kansas (1998); North Texas (1998); SUNY-Albany & NYS Health Department, 2001. Special consultant to State of Colorado in their effort to create a new multi-university school of public health (2006); University of Minnesota School of Public Health (2007).
- \*Member, US Environmental Protection Agency, Science Advisory Board, Risk Reduction Options Committee, June 1996-February 1997; Board of Scientific Councilors, Lab Review subcommittee, 2001;
- \*Member, National Research Council, Committee on Remedial Action Priorities for Hazardous Waste Sites, Board on Environmental Studies and Toxicology, 1992-1994
- \*Member, National Research Council, Committee on Review and Evaluation of the Army Chemical Stockpile Disposal Program, Board on Army Science and Technology, 1996-2001.
- \*Council member, Society for Risk Analysis, 1999-2002
- \*Co-chair, Smart Growth Transition Team, Governor-elect Jim McGreevey, 2001.
- \*Editor for social sciences, Risk Analysis, 2002-present
- \*Associate editor for environmental health, American Journal of Public Health, 1998-present

## EDITORIAL BOARD MEMBER

Accountability in Research (1990-2000); Environmentalist (1980+); American Journal of Health Behavior (1988+); Planning Literature (1985-96); Socio-Economic Planning Sciences (1986+); American Journal of Public Health, 1998 (associate editor for environmental health); Human Ecology Review (1999+); editor for social sciences, Risk Analysis, (2002+).

## REVIEW OF ARTICLES FOR

American Journal of Public Health; Annals of the Association of American Geographers; Applied Demography; Carcinogenesis; Economic Geography; Environmental Health Perspectives; Environment and Planning A; Environmental Impact Assessment Review, Environmental Planning and Management; Environmental Management; Environmental Management Review; Environmental Practice; Environmental Research; Epidemiology; Geographical Review; Growth and Change

Health Education Quarterly; Health Education Research; Housing Policy Debate; Housing Studies; Human Ecology; Human Ecology Review; Journal of the Air & Waste Management Association; Journal of the American Institute of Planners; Journal of Dental Education; Journal of Dental Research; Journal of Exposure Analysis and Environmental Epidemiology; Journal of the National Cancer Institute; Journal of Planning Education and Research; Journal of Public Health Policy; Journal of Regional Science; Lung

Milbank Quarterly; Management Science; Medical Geography; Preventive Medicine; Professional Geographer; Public Works Management and Policy; Risk Analysis; Risk: Issues in Health and Safety; Rural Sociology; Science Communication; Science, Science of the Total Environment; Statistics and Medicine, Social Science Quarterly; Technology & Human Values, Social Science and Medicine; Urban Ecosystems; Urban Ecosystems, Urban Geography; Urban Affairs Review; Urban Studies

## TEACHING

### Fall: Advanced Multivariate Statistics

This course introduces students to some of the most widely used multivariate methods: factor analysis, discriminant analysis, and multiple regression analysis using components as independent variables. Students gather their own small data sets and run the analyses on these data sets using SPSS or SAS. Each student submits two papers summarizing their results and makes at least one oral presentation. Emphasis is placed on the advantages and disadvantages of these methods and the issues of missing data, the form of the data, and interpretation of the results.

### Spring: Protecting Community Health (last taught Spring 2005)

This course describes how environmental health policy is made and how this relates to urban revitalization. We discuss health/safety/environmental protection, economic feasibility, legal/political feasibility, benefits/costs, ethical imperatives, time pressure, and flexibility as criteria used by decision-makers. We use waste management or another topic to illustrate the interplay of these criteria in the United States. Students submit 2 papers, which evaluate resident perception of neighborhood quality in light of what they have learned.

### Spring: introduction to Planning, Policy and Health (began teaching Spring 06)

Introduction to the major subject areas taught of the Bloustein School. Developed framework based on environmental policy experience that introduces the concepts that most strongly influence policy. These are elected officials/senior staff, non-government interests, public concerns, science, ethics, economics, and time/flexibility.

## DOCTORAL STUDENTS (\*=major advisor)

Newton Levine, planning, Columbia University\*; Hiroko Sakai, geography, Columbia University, 1972\*; Thomas Angotti, planning, 1973\*; Ethan Smith, planning, 1974; Simeon Hook, planning, 1976; Jon Weyland, planning, 1977; Ronald Foresta, planning, 1978; Charles Koebel, planning, 1979; Ademoula Salau, planning, 1979\*; Robert Ziegenfus, geography, 1980\*; George William Page, planning, 1980\*; Michelle Frumkin-Rosengaus, geography, 1980; Richard Anderson, planning, 1981\*; Catherine McVicker, geography, 1983\*, Beth Krugman, planning, 1985\*, Nancy Neuman, geography, 1986\*; Donald Rebovich, criminal justice, 1986; Felix Barreto, planning, 1986; Dona Schneider, geography, 1988\*; Erik Dienemann, chemical engineering, 1989; Anthony Mason, geography, 1989\*; Jon Erickson, planning, 1989\*; Tracey Clapp, chemical engineering, 1989; David Rose, planning, 1989\*; Enid Lotstein, geography, 1990; William Solecki, geography, 1990; Glen Belnay, planning, 1991\*; Bernadette West, planning, 1991\*; Craig Nessel, public health, 1991; Kandice Salomone, public policy, Syracuse University, 1992; Michael Zelinka, environmental science, 1992; Nicholas Lawryk, public health, 1994; Lynn McGrath, public health, 1995; Jessica Sanchez, planning, 1996\*; Karen

Lowrie, planning, 1996\*; Nevin Cohen, planning, 1996\*; Roger Balm, geography, 1996; Ann Curley, 1996; Jonathan Feldman, planning, 1997; Alan Frei, Geography, 1997; Jeffrey Schein, Public Health, 1997; Basilio Verduzco, planning, 1998\*, Karen Reed, Environmental Science, 1998; Tyler Miller, Planning, 1998; Jan Wells, Planning, 1998; Anne Bellows, Geography, 1999; Henry Mayer, Planning, 1999\*; Juliana Mantaay, Geography, 2000; Darien Simon, Planning, 2000\*; Linda Bonano, Environmental Science, 2000; Sandra Wardlow, Public Wansoo Im, Planning, 2001; Frances Hoffman, Planning, 2001;\* Laura Solitare, Planning, 2001;\* Michael Frisch, Planning 2002;\* Jane Sponholz, Planning, 2002\*; Peggy Wong, Public Health, 2003\*; David Lewis, Planning, 2003; Fred Ellerbusch, Public Health\*, 2005; Walter Sein, Geography, Buffalo, SUNY, 2005\*; Hong-Ling Wee, Geogrpahy,2005\*; John Renne, 2005, Planning\*; Kristen Crossney, Planning, 2006; Justin Hollander, planning, 2006\*; Jeremy Nemeth, Planning, 2007;

EXTERNALLY FUNDED RESEARCH: 1996 To Present (\$10K+)
